# Shishir Bhuiyan

Full Stack Web Developer

About

I'm Shishir and interested in doing positive things about every aspect of life. I love projects with challenges. I like working to make an impact in the real world. I always try to work for my world with my community. I learn to extend. Also, I specialize in Front-End and Back-End web Development. At the end of the day, I believe Code never lies.

Contact

Education

- **Patuakhali Science & Technology University**

  BSC Engineering in Computer Science And Engineering
  2019-202..

- **Hazi Abed Ali College**

  Narsingdi Sadar, Narsingdi
  2015-2017

Experence

- **Full Stack Web Developer**

  In my view, I'm much familiar with PHP, Laravel, ReactJs, and Lumen API. I already play with them for almost 3 years on many environment-friendly projects. That's it! I am happy to work efficiently, user friendly also with hardly effectively.

- **Knowledge Based Teaching**

  This is my pleasure when I teach someone something according to my knowledge. Besides teaching, I love to listen to others' opinions and life story also. Because I learn more from the practical situation.

Skills

Javascript	60%
Laravel	85%
ReactJs	65%
